

## Meeting of the Rome Book Club.

On Wednesday afternoon, May 4th, Mrs. Carey Rollins proved herself a most charming hostess when she entertained the Rome Book Club. The meeting was called to order by the president, and roll-call was answered by state current events. The financial affairs of the club were attended to, and the literary program was carried out. Two excellent papers were read, one by Miss Halene Clark and the other by Mrs. Rollins. A description of the pageant to be held at Winthrop on the sixth was also read, and members of the Club expressed great interest in the costumes, folk dances, and other features of the pageant.

The hostess served a sweet course which was enjoyed by those present. Mrs. Troy Cribb assisted with the music during the social hour.

## Oak Leaves Poison Stock

Oak leaves, if eaten continuously by cattle, produce a sickness which frequently proves fatal, investigations conducted by specialists of the United States Department of Agriculture show. Most oak-leaf poisoning, the specialists say, occurs in the spring, for at that time there is a scarcity of green forage on many ranges and the craving which stock have for green food leads them to eat the leaves in excessive amounts. In order to cause sickness, however, oak leaves must be eaten almost exclusively. If eaten with other food, the animals are not injured. It has been found experimentally that as small a quantity as 3 pounds daily of alfalfa hay fed in connection with oak leaves prevented poisoning.

Observations on the range and experimental feeding both show that some cattle may eat oak leaves for a long time with no definite bad effects, and some will even eat them exclusively with no harm. Generally speaking, those that are injured show the results only after eating a considerable quantity through a rather prolonged period, usually from 16 to 35 days. The specialists point out that the oaks on many ranges furnish a most important element in summer feed when additional sources of forage are available, but they urge that care be exercised during the spring that cattle be not admitted to summer range at too early a date, for oak leaves are well advanced before the appearance of the grasses.

## Wilson Pays With Life.

Albert Wilson, who shot to death Bryan E. Butler, a young mill employee here on the night of March 20, 1920, in a crowded street car paid the death penalty in Columbia last week. Butler, who was accompanied by his wife at the time of the tragedy, resented an insult from the negro and knocked him to the floor of the car. The negro shot from a reclining position and Butler dropped dead at the

feet of his wife. The case went to the supreme Court, which sustained the verdict and the negro was reprieved several times by Governor Cooper so that his case could be reviewed by the pardon board.

## Economy WAKE UP!

You Have Been Robbed for the Past Four Years!

No longer do you have to labor under the autocratic hand of an unreasonable merchant, always paying exorbitant prices so that he may meet the demands of carrying a large, unnecessary overhead expense, and at the same time fatten his own pocket-book.

Economy is the watchword of America today. People no longer boast of how much they pay for an article, but of how little they pay for an article of such good value. Public opinion is the greatest force in the world today, and never has extravagance and the squandering of money been in such bad repute as at present. Anyone can make money, but WISE people save it.

## We Are Here to Help You Save!

Through conservative buying, the advantage of buying in large lots, and our willingness to accept a small profit on our goods, as compensation for our labors, we can do it. We recognize our dependance upon you for our existence, but, at the same time you help yourself when you trade with us. We guarantee you absolute satisfaction on every purchase made at our store.

Don't Wonder How Your Neighbor Has the Things You Want and Can't Afford. It's No Mystery---  
**THEY SAVE.**

Your money represents a part of yourself. The valuation a person puts on a dollar is a sure index to his character. Use discretion in your spending.

If You Want Us to Continue Hammering the Prices Down Make our Store Your Place to Buy Anything in the Grocery and Feed Line.

We will always serve you promptly and courteously when you come into our store.

## VALUE OF A TECHNICAL EDUCATION

A technical education is the best insurance against hard times. In earning capacity, it may equal an estate of \$50,000. For the untrained are the positions of poverty and obscurity.

Times are hard in South Carolina but the cost of an education at Clemson College is comparatively low,—sufficiently low to be within the reach of any ambitious young man in South Carolina.

Scholarships, free tuition and the payment by the United States Government to R. O. T. C. students, still further reduce the cost.

Do not allow the financial difficulties to keep you from entering college this fall to prepare yourself for the opportunities that lie ahead.

## SCHOLARSHIPS AND EXAMINATIONS.

The college maintains one hundred and seventy four-year scholarships in the Agricultural and Textile courses. Each scholarship means \$400 to help pay expenses and \$160 for tuition apportioned equally over the four years.

Also fifty-two scholarships in the One Year Agricultural Course, these scholarships are worth \$100 and tuition of \$40. The scholarships must be won by competitive examinations which are held by each County Superintendent of Education on July 8th. It is worth your while to try for one of these scholarships.

Credit for examinations passed at the county seat will be given to those who are not applying for scholarships but for entrance.

R. O. T. C.—Clemson is a member of the senior division of the Reserve Officers Training Corps. All R. O. T. C. students receive financial assistance from the Federal Government, this reaching about \$200 per year during the junior and senior classes.
